

ANISH PATNAIK

FULL STACK DEVELOPER | MERN STACK SPECIALIST

Email: anishpatnaik65@gmail.com | Phone: +91 70088 14048

Portfolio: insightfuledge-portfolio.onrender.com | LinkedIn: linkedin.com/in/anish-patnaik

SUMMARY

Full Stack Developer specializing in the MERN stack with hands-on experience building real-time and secure web applications. Developed multiple full-stack projects including chat systems, feedback dashboards, and secure link generators with REST APIs and authentication.

Skilled in MongoDB, Express.js, React.js, and Node.js, with additional experience in SQL and Python for data-driven applications. Strong problem-solving abilities combined with 8 years of teaching experience, bringing excellent communication and structured thinking to development teams.

TECHNICAL SKILLS

- **MERN Stack:** MongoDB, Express.js, React.js, Node.js
 - **Frontend:** HTML, CSS, JavaScript
 - **Backend & APIs:** REST APIs, Authentication, Real-time Systems (Socket.io)
 - **Tools:** Git, GitHub, Postman
 - **Data Skills:** SQL, Python (Pandas, NumPy), Excel, Data Analysis
-

CERTIFICATION

Software Engineer — HackerRank | 2026

Demonstrated strong problem-solving skills, data structures, and algorithms through coding assessments

React.js Certification — Simplilearn | 2023

Built dynamic user interfaces using React concepts like components, state, props, and event handling

Google Data Analytics Professional Certificate — Coursera | 2025

Gained experience in SQL, Python, data cleaning, EDA, and data visualization

PROJECTS & PRACTICAL EXPERIENCE

- **Real-Time Chat Application (MERN + Socket.io)**
 - Built a real-time chat application using MERN stack and Socket.io enabling instant user communication
 - Developed 10+ REST APIs for authentication, messaging, and user management
 - Implemented bidirectional communication with low-latency real-time event handling
 - Designed secure authentication and authorization system using Node.js and Express.js
 - Optimized MongoDB queries for efficient message storage and fast retrieval
 - Created responsive UI using React.js ensuring smooth user experience across devices
 - Implemented features like typing indicators, user presence, and real-time notifications
 - **Client Feedback Dashboard**
 - Developed a full-stack feedback management system to collect, analyse, and visualize user data
 - Designed REST APIs to ensure seamless frontend-backend communication
 - Implemented dynamic data visualization for identifying trends and actionable insights
 - Structured and managed large datasets for improved decision-making
 - Built responsive and user-friendly UI using React.js
 - **One-Time Secret Link Generator**
 - Built a secure application to generate time-limited, single-use secret links
 - Implemented token-based authentication and expiration logic for enhanced security
 - Designed backend system ensuring one-time access and automatic data deletion
 - Focused on secure data handling and privacy best practices
 - Developed clean and intuitive UI for seamless user interaction
-

ADDITIONAL EXPERIENCE

- Educator / Instructor
 - 8 years of experience teaching and mentoring students
 - Developed strong communication and problem-solving skills
 - Simplified complex concepts, improving understanding and engagement
 - Built structured and logical thinking approaches
-

EDUCATION

Master of Business Administration (Finance & Human Resources) | 2023

Gandhi Institute of Advanced Computer & Research

Bachelor of Science (Chemistry) | 2019

Model Degree College, Rayagada
